

PROFILE SUMMARY

Process-oriented professional and former **National football** Player with experience across **customer operations and client portfolio management**. Combines hands on problem solving, data tracking, and sports leadership to build efficient team environments.

PROFESSIONAL EXPERIENCE

Sales Executive , HDFC Credila Financial Services Limited Jun 2024-Apr 2025

- Managed an end-to-end ₹ 50 Cr operational portfolio, evaluating customer requirements, streamlining deal progression, and coordinating cross-functional teams to achieve ₹ 30 Cr in disbursements.
- Resolved high-priority escalations and complex customer issues through structured stakeholder coordination, achieving 300% of the target within 11 months.
- Analysed profile requirements and operational documentation gaps to resolve application bottlenecks, sustaining a 45%–55% conversion ratio under tight timeline SLAs.
- Designed a real-time tracking dashboard on Excel to map application stages, monitor workstream bottlenecks, and streamline cross-functional coordination, driving a 100% surge in inbound partner leads.

Customer Care Executive , Teleperformance Mar 2022-Sep 2023

- Managed operational workflows for premier Flipkart sellers, resolving fulfilment, inventory and payment issues to maintain 90% Seller SSAT and ensure strict operational SLA compliance.

ACADEMIC PROJECTS/TRAINING

- 3DU Internship 2026, Market Entry & Go-to-Market Strategy

Formulated a Go-to-Market roadmap by evaluating customer segments, service delivery models, and pricing levers, establishing a structured execution plan for market Entry.

- PepsiCo Internship 2026, Market Research & Channel Strategy

Analysed retail-level data across product assortment, pricing, SKU availability and in-store visibility to identify distribution and merchandising gaps, generating actionable channel insights for retail strategy.

- Herbs & Hopes 2026, Revenue Scale-Up & Digital Growth Strategy

Analysed customer purchase barriers and conversion friction to design a trial-led acquisition model while leveraging AI-agent workflows to streamline research and operational processes.
